We had a very good month in august.

409 k \$ in sales 83k of which was internet , we made a profit this month (positive ibida of 80k \$).

We are 95k above our new forecast (last 4 months) .

We had 435k in orders in august of which 80k was internet .

We passed 3 million in sales (660k in internet sales) this year (all last year 2.75 and we still have 4 months left)

Our caa Instagram page has exploded.

We did a live Facebook feed last night (4th time) and our internet sales were 3x the daily average .

All of this without selling one MH1 sight in the last 4 months (I'll get them in late September from India) I related this info on my call last night with kognito

If there would be more than 5 stars, i would give it to this company especially to the CEO Mikey Hartman. He's the coolest and nicest CEO we've ever encountered. I thought at first it was a joke when my husband told me that the CEO Mikey itself was the one who called him regarding for some questions about he purchase from CAA. From then, he's the one who explained everything about it and he even give a great deal for the micro Roni SBR and M11 red dot sight. We do really appreciate it and most of all, we are so much excited for giving us an opportunity to be one of the guest list at the Shot Show 2018. Can't wait to see you this week. Thank you...

I borked my stock and was a upset. I sent a PM over and had an immediate response. I received a phone call right after that and was able to get a replacement part ordered. Their service is beyond 5 stars and highly recommend purchasing from them!

Hey ,

Just some facts you can share .

1) we have paid 1.4 million \$ to Israel so far this year . The most ever paid from USA to Israel in a 4.5 months period ever !!!

2) we are on pace to have our best year ever , all was going great until Tal quit . Unfortunately Moshe decided to change the way things were working and destroyed all the good we had going .

3) we paid Israel so far this year net 7-14 instead of net 45 ,meaning we are paying much sooner than ever .

4) by selling to our competition and encouraging them to sell below MAP Moshe has hurt us as well as Israel and the product . Numerous dealers are complaining about MAP violations on yrs (tvika) and microni (Shacar) and Moshe even () liked a post by Shacar who was promoting selling the stabilizer

Shlomi Caa Israel

encouraging them to sell below

MAP Mc May 27, 2018 us as well as Israel and the product . Numerous dealers are complaining about MAP violations on yrs (tvika) and micro roni (Shacar) and Moshe even () liked a post by Shacar who was promoting selling the stabilizer at below MAP . How can an owner break the contract that gives us exclusivity and encourage others to violate that .

5) by contract we are supposed to pay royalties to SBTACTICAL.

Shacar and tvika do not pay them , their lawyers already reached out to us and now Israel is open to law suits as well as them closing America to the stabilizer sells .

6) holding shipments hostage to be pre paid (which was never discussed nor agreed to) in a joke that no company in the world can deal with .

7) sending inventory items without POs and expecting to be prepaid is

Shlomi Caa Israel

discussed not agreed to / in a joke
that no (May 27, 2018) the world could
deal with .

7) sending inventory items without
POs and expecting to be prepaid is
again a joke .

8) we in USA have bypassed our
forecast budget every month the
last 12 months including MAY which
we will bypass it by 100k as well . A
shame all the hard work we all did
is being ruined in one week since
Tal left .

If you want to do something nice call Asher and say thank you (as an owner) for his hard work the last 4.5 years .

I'm sure you heard he quit last night .

He deserves some appreciation for his hard work .

You don't have to of course but it would be a nice gesture .

I'm sure He would love to hear some nice words .
